We, the staff of the 1957 "Raider Calls," proudly dedicate this annual to our parents who help make possible the fine education that each boy and girl here receives. They have been effective in giving every student greater opportunities for learning so that he will be better prepared to go forward into the future. With untiring patronage and love, our parents have made it possible to have the school we have today.

We sincerely wish to extend a token of appreciation to our parents who have so unselfishly given their time, understanding, and interests to our futures and the future of Francisco School.

Principal's Message

In future years when you look back on your high school days, may you remember with satisfaction the profitable hours you have spent in the classroom and the good times you have had with your friends.

We hope the training you have received at Francisco will enable you, in some degree, to face life's problems wisely and courageously. May you be an asset to any community in which you live and to every individual with whom you associate.

God strengthen you, guide you, and keep you.

Very sincerely,

Lloyd E. Collins
